

Product Benefit Sheet

Revised: 2016/11/25 (version 1.0)

PETRONAS Syntium 3000 BV 5W-40

Designed for Excellent Protection in All Climates

Description and Applications

PETRONAS Syntium 3000 BV 5W-40 is specially formulated to provide excellent protection for engines running under the most extreme and demanding conditions. It is formulated with fully synthetic and mid SAPS lubricant technology to provide exceptional thermal and oxidation stability.

PETRONAS Syntium 3000 BV 5W-40 is a full SAPS oil that is suitable for most types of passenger cars including gasoline, diesel (not equipped with a diesel particulate filter system), ethanol, CNG and flex fuel engines and latest high performance cars fitted with fuel injections, multi-valves, turbochargers or superchargers operating under most severe conditions.

The experience gathered by PETRONAS on the F1 circuits and most important motoring events and competitions has enabled the development of PETRONAS Syntium; a range of hi-tech lubricants capable of meeting the needs of new generation engines – both on track and on the road.

Note: Always consult your owner's manual to check recommended viscosity grade and specifications for your particular vehicle

Features and Benefits

Delivers:

- Excellent protection against wear of all engine components, helps preventing engine failure from wear and tear.
- Excellent thermal stability and resistance to oxidation, ensuring minimum oil thickening at very high temperature.
- Excellent engine cleanliness and deposit control
- Instant start-up lubrication.

Specifications and Approvals

PETRONAS Syntium 3000 BV 5W-40 is a fully synthetic lubricants that meets and exceeds below performances:-

Meets or Exceeds the requirements of:	
API SN	√
ACEA A3/B4	√

Has the following builder approvals:	
VW 508 88/ 509 99	√

Meets or Exceeds the following builder requirements:

MB 229.5; MB 226.5	√
Renault RN0700/ RN0710	√
