PETRONAS Syntium 800 HM 15W-50

Designed with °CoolTech™ technology to fight excessive engine heat

Description and Applications

PETRONAS Syntium 800 HM 15W-50 is formulated with °CoolTech™ to fight excessive engine heat. °CoolTech™ targets the critical heat zones – engine parts affected by excessive heat inside the engine to effectively absorb & transfer the excessive heat and regulates the temperature, defending the engine critical components from damaging and loss of performance.

PETRONAS Syntium 800 HM 15W-50 is recommended for use in all type of passenger cars including gasoline, diesel, ethanol, CNG and flex fuel engines and latest model high performance cars fitted with fuel injections, multi-valves, turbochargers or superchargers operating under the most extreme conditions

The experience gathered by PETRONAS on the F1 circuits and most important motoring events and competitions has enabled the development of PETRONAS Syntium; a range of hi-tech lubricants capable of meeting the needs of new generation engines – both on track and on the road.

The experience gathered by PETRONAS on the F1 circuits and most important motoring events and competitions has enabled the development of PETRONAS Syntium; a range of hi-tech lubricants capable of meeting the needs of new generation engines – both on track and on the road.

Note: Always consult your owner's manual to check recommended viscosity grade and specifications for your particular vehicle

Features and Benefits

Main benefit(s):

- Outstanding High Temperature Oxidation Control, delivering lubrication stability and prevent car breakdowns

Also delivers:

- Superior deposit and sludge build-up prevention, delivering cleaner engine and longer engine life
- Helps delivering extra performance for extreme driving conditions, including racing.

Specifications and Approvals

PETRONAS Syntium 800 HM 15W-50 meets and exceeds below performances:-

Meets or Exceeds the requirements of:

API SL	√
