

PETRONAS CIRCULA PM SERIES

Premium Performance Anti-wear Circulating Oil

PETRONAS Circula PM Series are premium performance anti-wear circulating oils specially developed for paper machine circulating systems operating under normal to extremely heavy duty conditions.

Formulated with high quality selected mineral base oils enhanced with advanced anti-wear, anti-oxidant, anti-rust and anti-foam additives coupled with friction modifiers, PETRONAS Circula PM oils provide excellent anti-wear protection under toughest operating conditions, excellent water separability, excellent resistance to sludge formation, high thermal and oxidation stability for more than 3x longer lasting performance*.

PETRONAS Circula PM Series meets key OEM requirements.

*vs. minimum requirements of ISO 11158 HM fluids based on TOST (ASTM D943)

Applications

PETRONAS Circula PM Series are recommended for use in:

- lubrication of bearings, gears and auxiliary equipment in the wet and dryer sections of paper machines
- heavy duty circulating system with gears and bearings

Features and Benefits

Features	Benefits
Excellent anti-wear protection	Protects equipment components from excessive wear and provides longer equipment life
High thermal and oxidation stability	Maintains performance levels under high temperatures and pressure, enabling long oil drain intervals
Excellent water separability	Due to excellent water separability the system is protected from water degenerative effects, maintaining circulating system efficiency at required level and reducing maintenance costs
Excellent resistance to sludging	Excellent cleanliness for sludge free circulating systems
Excellent foam stability	Maintains excellent efficiency in circulating systems, ensures smooth operation. Protects the system from air degenerative effects reducing maintenance costs
High rust & corrosion protection	Inhibits the corrosion process that occurs in presence of water, improving equipment life
High multi metal compatibility	Compatible with most metal alloys ensuring trouble free performance of the system
High compatibility with most seal and elastomers	Compatible with most seals and elastomers, which prevents oil leaks and contamination due to seal erosion
